

Angewandte Corrigendum

In the original version of this Communication, there was an error in the structure of bartoloside A (**1**), which was depicted in Figure 1 with an α -D-xylosyl moiety. The correct structure, bearing a β -D-xylosyl moiety is shown below.

The same error was made in Figure S2 of the Supporting Information, which was corrected and now also includes an updated depiction of the coupling constant analysis of the xylosyl moiety in compound **1**.

The authors apologize for this mistake, which has no bearing on the results or conclusions of the study, which remain unchanged.

Biosynthesis-Assisted Structural Elucidation of the Bartolosides, Chlorinated Aromatic Glycolipids from Cyanobacteria
